How do I whitelist for AIM Mail?

With AIM Mail, addresses in your Contacts list are exempt from being treated as spam. You can make sure you reliably get our emails in your inbox by adding our From address to your Contacts.

» In your AIM mailbox, find your most recent e-mail from any of the Resale Enterprises websites.
» Hover your mouse cursor over the From address of that message.
» When the mini-menu of options appears, click Add Contact.
» Click the Add Contact button.

That does it. Thanks for whitelisting Resale Enterprises.
