Earthlink will deliver anything that comes from a Contact address in your Address Book directly to your inbox. So, youâ€™™ need to add our From address to your Address Book.

- » First, get the From address from your most recent email from us.
- » Open your Earthlink Address Book.
- » Click the Add button.
- » The Add Contact screen opens. Find the Internet Information box.
- » In the top E-mail box, type or paste in the From address from your most recent email from us.
- » Click Save.

That ought to do the job. Thanks for whitelisting Resale Enterprises.
