Google's Gmail will deliver anything that comes from an address in your Contacts list into your inbox. So, to whitelist our email addresses, you'll need to add our From address to your Contacts.

- » Open your most recent e-mail from us.
- » Click to the right of the "Reply" button to open the Options mini-menu.
- » Select the Add (name) to Contacts List option.

That's all there is to it. Thanks for whitelisting Resale Enterprises.
