To reliably get our emailsdelivered to your Lycos inbox, you€™ll need to exempt it from the Lycos e-mail filters. To do that, you add our From address to your Sender White List.

» First, get the From address from your most recent email from us.
» In your Lycos mailbox, click Options. (It€™s over on the left.)
» Click Spam Filters.
» Select the Add to allowed address list tab.
» In the space to the left of From, type or paste the From address from your most recent email from us.
» Click the Add button.
» The address you entered will be added to the list and displayed below the form.

That€™s all there is to it. Thanks for whitelisting Resale Enterprises.
