If an address is in your Address Book, Prodigy will deliver anything that comes from that address into your inbox. So, you'll need to add our From address as a Contact in your Address Book.

» First, get the From address from your most recent email from us.
» Open your Address Book.
» Click the Add Contact button.
» Type or paste into the space provided the From address from your most recent email from us.
» Save.

Thanks for whitelisting Resale Enterprises.
