To get our emails, youâ€™ll need to exempt it from the filtering SpamBuster does. To do that, you add an Exception to the filters for our From address.

- » First, get the From address from your most recent email from us.
- » Open the SpamBuster Spam Settings
- » Select the Exceptions tab.
- » Click the Insert button.
- » Set What to Domain name.
- » Set Condition to Equals.
- » Set Matches to [PUBDOMAIN].
- » Set Case to No.
- » Save and close the settings.

Thanks for making an exception for Resale Enterprises.
