Some Private Label Rights (PLR) products that we sell will have our domain URL <http://master-resale-rights.com> at the bottom of each page. This may be removed.

For MS Word. Open the Source ebook Word file.

- » At the top of your screen click on the "View" link.
- » Select Header and Footer
- » Click on the Header Footer edit icon

This will give you access to our link location at the bottom of the page. Simple edit it in any way that you deem fit and then select "Close" on the toolbar, this will save your changes.

Note: If you do not have your own PDF Creation Software, try using the 100% free one at : <http://www.pdf995.com/>, use this to create a new PDF ebook, with your own links inside.
