Hi, we very much welcome JV partnerships but they usually begin by you sending us an affiliate banner 120x240 and we place it on our website with our affiliate link attached to the the banner therefore we can profit share in the sale of the prodcut.

If you do not have that affiliate capability set then we can also offer your products for free on our website as long as you agree to place atleast one link <http://master-resale-rights.com> somewhere on the first two pages of the ebook.

We strongly recommned that you create eCovers (grahpics) for your products or it is most likely that they will not be past around as much as you like, as most reselllers want to have cover (graphic) to display with each ebook.

Passing around your ebook for free is a powerful viral marketing tool and sghould drive quality traffic to you website.
