---

Adelpia will deliver anything that comes from an address in your Contacts List directly to your inbox. So, youâ€™ll need to add our From address to your list of Contacts. There are two ways to do this.

### **The easy way:**

- » Find a message thatâ€™s from us somewhere in your Adelpia mailbox.
- » Select that message.
- » Click the Add Contact button. (Itâ€™s a rather small icon next to the From address.)

### **The slightly harder way:**

- » First, get the From address from your most recent email from one of our websites.
- » Click the Contacts button.
- » Select New Contact.
- » Youâ€™ll see the Brief View, which is fine for this purpose. In the space provided, type or paste the From address from your most recent email from a resale Enterprises website.
- » Enter a Display Name to go with this Contact. (You canâ€™t create a contact without one.)
- » Click OK.

That takes care of it. Thanks for whitelisting Resale Enterprises.
