Angelfire uses the Lycos e-mail system. To reliably get our emails delivered to your inbox, youâ€™ll need to exempt us from the Lycos e-mail filters. To do that, you add our From address to your Sender White List.

- » First, get the From address from your most recent Cabot Wealth Advisory.
- » In your Lycos mailbox, click Options. (Itâ€™s over on the left.)
- » Click Spam Filters.
- » Select the Add to allowed address list tab.
- » In the space to the left of From, type or paste the From address from your most recent Resale Enterprises email.
- » Click the Add button.
- » The address you entered will be added to the list and displayed below the form.

Thatâ€™s all there is to it. Thanks for whitelisting Resale Enterprises.
