If an address is in your Address Book, Cox will deliver anything that comes from that address into your inbox. So, you'll need to add our From address as a Contact in your Address Book.

» First, get the From address from your most recent email from us.
» Click Addresses to open your Address Book.
» Click Create Address.
» Type or paste into the space provided the From address from your most recent email from us.
» Click Save.

That's all there is to it. Thanks for whitelisting Resale Enterpsies.
