---

If an address is in your list of Contacts, Excite will deliver anything that comes from that address into your inbox. So, youâ€™ need to add our From address as a Contact in your Address Book.

- » First, get the From address from your most recent email from us.
- » Select the Addresses tab to open your Address Book.
- » Click the New Contact button.
- » Type or paste into the space provided the From address from your most recent email from us.
- » Click Save Changes.

That ought to take care of it. Thanks for whitelisting Resale Enterprises.
