For our emails to reliably get into your inbox, youâ€™ need to exempt it from the filtering iHateSpam does. You do this by adding our From address to your Friends list.

- » First, get the From address from your most recent email from us.
- » Select Options from the iHatespam menu.
- » Select the Friends List tab.
- » Click the Add button.
- » In the space provided, type or paste the From address from your most recent email from us.
- » Click OK.
- » Check that the address you just entered is in the Friends List.
- » Click OK to close the Options.

Thanks for whitelisting Resale Enterprises.
