

How do I whitelist for RoadRunner?

Roadrunner will deliver anything that comes from an address in your Contacts List directly to your inbox. So, youâ€™ll need to add our From address to your list of Contacts. There are two ways to do this.

The easy way:

- » Find a message thatâ€™s from us somewhere in your Roadrunner mailbox.
- » Select that message.
- » Click the Add Contact button. (Itâ€™s a rather small icon next to the From address.)

The slightly harder way:

- » First, get the From address from your most recent email from us.
 - » Click the Contacts button.
 - » Select New Contact.
- » Youâ€™ll see the Brief View, which is fine for this purpose. In the space provided, type or paste the From address from your most recent email from us. Enter a Display Name to go with this Contact. (You canâ€™t create a contact without one.)
- » Click OK.

Thanks for whitelisting Resale Enterprises.
