SpamBully will reliably deliverÂ our emailsÂ to the inbox if you exempt it from SpamBullyâ€™s filters. To do that, you have to add us to your Allow List.

- » First, get the From address from your most recent email from us.
- » Open SpamBully.
- » Click the Allow/Block List button
- » Select the Allow List tab.
- » Click the Add button
- » In the Type of Item selector, choose E-mail address.
- » In the lower box, type or paste the From address from your most recent email from us.
- » Click OK.

Thanks for whitelisting Resale Enterprises.
