Â "Master Resale Rights", "Resale Rights", or "Personal Use" products do not come with an editable resource document. Usually (about 95% of the time) the only products that can be edited are the ones located in our "PLR" or "Private Label Rights" section here...

<http://master-resale-rights.com/private-label-rights>

We offer the world's largest single collection of these products, and they will come with the source or Microsoft Word document, that you can edit and then save as a PDF or "ebook".

If you need a program that you can get for free that will convert Word documents into ebooks (PDF's), you can get a free one here...

<http://www.pdf995.com/>

it works well.

Visit our free "[Downloads](#)" section of this website and we have free guides to download that can help you with this subject an a variety of others. quot;,
