We have a great website, but little or NO visitors. Now what is a website without traffic?

It's like an old book lying full of dust cause nobody uses it.

What we want is traffic and loads of it. And would it not be great if we can get it for FREE? So how do we go about to get this FREE TRAFFIC? You know, theres a lot of Article Directories spread accross the internet which give Article Writers (Authors) the opportunity to post their articles there for free with a free backlink to their sites.

All you have to do is to register with these Article Directories, activate your account, create a penname and then add your articles. And this is exactly what I used to do. But let me tell you (not that you are not aware of it), IT IS A TEDIOUS TASK. I mean, to addone Article to ALL these directories manually can take days or even weeks of hard work.

I wondered if there was'nt a program available which could assist me with this task and found quite a few article submitters available. The only problem was that some Article Distributors was not free and those that were had some restriction (like it will post to only a certain amount of article directories).

You'll have to buy the full version to get the most out of them.

Others could not post to the correct Categorie at the Article Directories ( it will post an article about dogs under Finance for example). Now that is very unprofessional.

So started my journey to try and create a program that could just do everything the others could not.

1. AUTO-CREATE ACCOUNTS AT THE DIRECTORIES.
2. AUTO-CREATE PENNAMES AT THE DIRECTORIES.
3. AUTO-DELETE PENNAMES AT THE DIRECTORIES.
4. AUTO-POST ARTICLES TO THE MOST RELEVANT CATEGORY TOTHESE DIRECTORIES.

And guess what? I accomplished it. And noe I want to share it with you at absolutely NO COST. Maybe you think that you can't write an Article? Let me tell you. YOU ARE WRONG!!!! I had the same thought at first, but what are you reading now? My article of course. You can write about anything under the sun.

You can even write an article about how you created your first website, or how you struggled to get traffic.

The sky is the limit. Below you will find a link to my site "Super Article Submiiter" where you can Auto-Post your articles in no time ABSOLUTELY FREE OF CHARGE!!!
